

Sheet Number:

G SCALE SOCIETY

CERTIFICATE OF ANNUAL INSPECTION AND STEAM CHECK

Owner/Members name: _____ Membership Number: _____

Locomotive/boiler subject to steam test: _____

This document can be used as a record of the annual check of locomotives below the 3.0 bar litre limit. All examination and checking shall be carried out in accordance with the requirements of the guidance contained in the Society's document "Checking of G Scale Locomotive Boilers", this document can be considered as the Written Scheme of Examination to comply with the requirements of the Pressure Systems Safety Regulations 2000, Regulation 8.

Certification: This document shall be used in conjunction with any pressure test certificate/documentation issued by the boiler manufacturer. This document along with the certification from the manufacturer shall be retained by the owner of the boiler/locomotive and subsequently passed on to any new owner if the boiler/locomotive is sold.

Items to be examined annually (tick as required)

Safety Valve:
 Pressure Gauge:
 Water Level Gauge:
 Boiler Water Feed Pump:

Record of Annual Inspections/Steam Checks.

Conversions: 1 Bar = 14.5038psi; 1 Litre = 1.76 pints; 1 pint = 0.568 litres; 1 lb/in² – 0.06895 Bar

Is Pressure Gauge fitted?		If so; range		Safety Valve set to lift at:			PSI
YES / NO		0 - PSI		Pressure Gauge Redlined at:			PSI
Date	Loco Pressure Gauge Reading	Safety valve lifts at: lb/in ²	Safety Valve resets at: lb/in ²	General condition of boiler pipework	Member Inspecting Signature	Member Witnessing Signature	Expiry date
